

Mackinac Island is known as the Crown Jewel of the Great Lakes - it's one of the most visited places in all of Michigan and one of the top tourist destinations in the United States. Stepping onto the island's shores, guests are transported back in time to a bygone era, where the automobile never replaced the horse and carriage and time moves a bit slower. Located on the island's sunrise side, Mission Point is a family-owned, award-winning resort providing genuine hospitality, inviting comfort and delicious food in a setting of unparalleled beauty and historic character.

With 241 guest rooms and suites, six on-property restaurants and eateries, the luxurious Lakeside Spa & Salon, on-site activities including bike rentals and an 18-hole putting course, an outdoor swimming pool and much more, Mission Point is your perfect island retreat.

Mackinac Island is an incredible place for garden enthusiasts and Mission Point is home to 18 acres of beautifully landscaped waterfront property, known for its endless array of blooms throughout the season thanks in large part to Proven Winners plants. You'll see daffodils and tulips in spring, Supertunia® petunias and 'Limelight' hydrangeas in peak summer, and mums in fall. The garden transforms into a new and unique color palette each season.

Available to all hotel guests, Mission Point now offers gardening sessions where guests can work alongside resident horticulturist Doug Darga to contribute to the island's beauty, get tips and tricks on plant care and bring seeds from Mackinac Island home with them. Guests can also participate in guided garden tours of the property, where Doug will share information about gardening in northern Michigan, the challenges and rewards of working on Mackinac Island and secrets for success at home.

For more information about all of the gardens in the Proven Winners Signature Garden Program, please visit [www.provenwinners.com](http://www.provenwinners.com).

# MISSION POINT MACKINAC ISLAND

*A Proven Winners Signature Garden*

Mission Point is a family-owned, award winning resort providing genuine hospitality, inviting comfort and delicious food in a setting of unparalleled beauty and historic character. As a Proven Winners Signature Garden, the grounds now showcase stunning Proven Winners plant varieties.

## Angelface® Super Blue *Angelonia*

Tall stems lined with blue-purple flowers add height and structure to large containers and landscapes. Zones 10-11. Sun. Height: 30"-40".

## Lemon Coral® *Sedum*

Durable, drought tolerant, colorful succulent for containers and landscapes. Very easy to grow. Zones 7-11. Part sun to sun. Height: 3"-10".

## Bright Lights™ Double Moonglow *Osteospermum*

Double, creamy yellow blossoms thrive in cooler weather; deer resistant, attracts butterflies. Zones 9-11. Part sun-sun. Height: 8"-12".

## Supertunia® Mini Vista Hot Pink *Petunia*

Hot pink flowers blanket these vigorous, mounding to spreading plants all season. Zones 10-11. Part sun-sun. Height: 6"-12".

## Luscious® Royale Cosmo *Lantana*

Fragrant, pink and yellow bicolor flowers attract pollinators all season on heat and drought tolerant plants. Zones 9-11. Sun. Height: 12"-26".

## Silver Bullet® *Artemisia*

Silvery white foliage makes a beautiful accent in sunny, hot, dry landscapes and containers. Zone 5-9. Sun. Height: 6"-10".

## Luscious® Bananarama™ *Lantana*

Fragrant, bright yellow flowers attract pollinators all season on heat and drought tolerant plants. Zones 9-11. Sun. Height: 20"-30".

## Hippo® Pink *Hypoestes*

Colorful foliage splashed with pink and green. Easy to mix with other plants in combinations. Zones 10-11. Part shade-shade. Height: 16"-22".

## Artist® Blue *Ageratum*

Small, fluffy button-like flowers add color and attract pollinators all season; no deadheading needed. Zones 9-10. Part sun-sun. Height: 8"-12".

## Diamond Frost® *Euphorbia*

Tiny, white flowers dance above this airy textured, extremely heat and drought tolerant plant all season. Zones 8-11. Sun. Height: 48"-96".

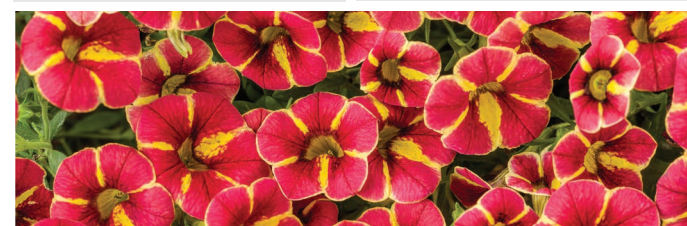

## Blue My Mind® *Evolvulus*

True blue flowers appear on spreading, silvery-green plants all summer without deadheading. Extremely heat tolerant. Zones 9-11. Sun. Height: 6"-12".

## Señorita Rosalita® *Cleome*

Heat and drought tolerant plant with odorless foliage that adds height and drama to gardens and landscapes. Zones 10-11. Sun. Height: 24"-48".

## Superbells® Cardinal Star™ *Calibrachoa*

Cherry red blossoms with gold stary centers appear abundantly on cascading stems all season. Zones 9-11. Part sun-sun. Height: 6"-12".
